

South Korea has struggled in its OGP participation, using commitments to further successful open data and e-government programs, but ultimately failing to engage effectively with the OGP process and pursue meaningful commitments that reflect OGP values.

Commitment Performance

Content

* midterm data

Key Recommendations

- ✓ Develop an OGP stakeholder forum for National Action Plan consultation
- ✓ Ensure commitments for core national challenges such as freedom of information or public participation
- ✓ Promote the National Action Plan among domestic stakeholders

Consultation Process
