MINISTRY OF ADMINISTRATIVE
RECONSTRUCTION

4th National Action Plan on Open Government 2019-2021 *(May 2019)*

Updated Version - Including Addendum with
Additional Commitments incorporated through the
OGP Greece Ideathon
(Dec 2020)

Editorial group

The members of the Editorial group are officials of the Transparency and Open Government Department of the Directorate for e-Governance of the Directorate-General for Public Organisations of the Ministry of Administrative Reconstruction, coordinated by the National Representative in the OGP, with responsibilities relating to the drafting and implementation of the 4th National Action Plan 2019-2021 and more generally on the promotion of open government policy in central government, local authorities and the public sector in general, in cooperation with civil society organisations and entities.

We would like to thank all the officials of entities of the public administration and civil society organisations for drafting the commitments and for their overall contribution and cooperation.

	Commitment 11: Open access to data of the Ministry of Culture and Sports	35
	Addendum - Additional Commitments incorporated through the OGP Greece Ideathon 2020	37

I. Introduction

The values and principles of Open Government are a priority that underpins the strategy of the Ministry of Administrative Reconstruction. Openness, inclusiveness and accountability are fundamental principles which are the cornerstone for the development and pursuit of national policies.

The culmination of our explicit and clear commitment to responsible open government is the active and continuous, since 2012, participation of the Greek Government in the International Cooperative Initiative of the Open Government Partnership (OGP) and the adoption of its values, through the development and implementation of the National Action Plans on open government.

At this stage and in cooperation with Civil Society bodies, the Fourth National Action Plan for Open Government for the period June 2019 - May 2021 has been developed.

Following a positive outcome that the country recorded in the Open Data agenda in international fora ([European Data Portal Report 2018](#)) the National Action Plan focuses on this specific domain, with the line Ministries as main actors.

The commitments further promote open access and re-use of documents, information and public sector data, which is a priority for the Greek public administration, with a view to bringing significant benefits to the society, the economy and the public administration.

Our participation in OGP is another opportunity for the Greek Government to launch an inclusive platform for an effective cooperation with civil society towards its meaningful involvement in monitoring the implementation of open government policy commitments.

Governance model of the National Action Plan:

The designated representative of the country in the OGP international cooperation initiative coordinates the promotion of the national policy on open government and the implementation of the National Action Plan.

A single management model of implementation is a prerequisite for achieving the objectives of the National Action Plan. The aim is to monitor and coordinate implementation of individual commitments in order to respect the timetable for implementation, and to update or amend the commitments undertaken where appropriate.

The Ministry of Administrative Reconstruction is responsible for the coordination of implementation of the open government commitments through the Transparency and Open Government Department, which is responsible for monitoring and coordinating issues relating to Greece's participation in the OGP. The actions include:

- Drafting and monitoring the implementation of the Open Government Action Plan, in line with the Charter of the Open Government Partnership Initiative, OGP (www.opengovpartnership.org) and the possible update of the Plan with new commitments,
- Cooperation with the bodies which have undertaken commitments under the Open Government Action Plan
- Cooperation, interaction and consultation with civil society actors active in the objects of open government,
- Cooperation with international organisations and bodies on open government issues
- Cooperation with the National OGP Representative to fulfil the country's obligations to OGP
- Representation of the country in OGP actions, following the consent of the National Representative

II. Drafting Procedure for the National Action Plan

On 16 April 2019, the drafting procedure of the 4th National Action Plan for Open Government was launched at a meeting with representatives of bodies, which took place at the Ministry of Administrative Reconstruction. A set of initial proposals and ideas for further discussion and processing has been formulated during the event.

On 18 April 2019, a meeting with Civil Society representatives was organised under the coordination of the Ministry with a view to drawing up the initial proposals.

All the initial commitments have been presented in an open consultation procedure in the period between 7.5.2019 and 14.5.2019, with a view to ensuring the participation of the wider public in the process.

III. Open and Participatory Governance commitments

Commitment 1: Open access to data of the Ministry of Education, Research and Religious Affairs

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage. The specific provisions of Law 3328/2002 shall remain in force.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Education, Research and Religious Affairs and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: Ministry of Education, Research and Religious Affairs
Cooperation with supervised entities.

Contact details: Ministry of Education, Research and Religious Affairs, Directorate of Electronic-Network Infrastructure

Objective

- 1) Web services for data mining (API).
- 2) Integration of new datasets.
- 3) Mobilisation of entities of the Ministry of Education, Research and Religious Affairs for data publication.
- 4) Improvement of the quality of datasets.
- 5) Open data release decisions:

DECISION 2019		DECISION 2020	
EG. STATISTICS ON REGISTRATION REQUESTS IN SECONDARY SCHOOLS FOR <u>THE YEAR 2018-2019</u>	STATISTICAL DATA (11)	EG. STATISTICS ON REGISTRATION REQUESTS IN SECONDARY SCHOOLS	STATISTICAL DATA (11 + 2)
EG. RECRUITMENTS OF SUBSTITUTE TEACHERS OF PRIMARY EDUCATION <u>2017-2018</u>	EDUCATION (95)	EG. RECRUITMENTS OF SUBSTITUTE TEACHERS <u>OF</u> <u>PRIMARY</u> <u>EDUCATION</u>	EDUCATION (95 +10)

Key milestones - Timetable

Milestone	Completion
(1) Web services for data mining (API)	Until the end 2020
2) Integration of new data	Continuously up to end of August 2021
(3) Activation of Ministry of the Environment (s) for data publication	Within 2019
4) Improving data quality	Continuously up to end of August 2021
5) Data Release Decisions	Three (3) by end of August 2021

Commitment 2: Open access to data of the Ministry of Rural Development and Food

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Rural Development and Food and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: Ministry of Rural Development and Food
Cooperation with supervised entities.

Contact details: Ministry of Rural Development and Food, Directorate for Administrative Organisation and Supervision of Legal Entities

Objective

- 1) Anonymisation and creation of new datasets.
- 2) Integration of new datasets.
- 3) Mobilisation of entities of the Ministry of Rural Development and Food for data publication.
- 4) Improvement of the quality of datasets.
- 5) Open data release decisions
- 6) Upgrading of digital applications and provision of additional datasets

Key milestones - Timetable

Milestone	Completion
1) Anonymisation and creation of new datasets.	Until the end 2021
2) Integration of new datasets.	A) 49 datasets within 2019 B) Continuously up to end of August 2021

3) Mobilisation of entities of the Ministry of Rural Development and Food for data publication.	Within 2019
4) Improvement of the quality of datasets.	Continuously up to end of August 2021
5) Open data release decisions	Three (3) by end of August 2021
6) Upgrading of digital applications and provision of additional datasets	Within 2020

Information on the upcoming releases of datasets in 2019 and 2020 are presented below.

Within 2019

DIRECTORATE-GENERAL OF FINANCIAL SERVICES

Special Secretariat for Citizenship, Directorate for Citizenship	Annual statistics for the total number of persons who have acquired Greek citizenship, rejections of applications and withdrawals of Greek citizenship decisions by category.

Commitment 6: Open access to data of the Ministry of Administrative Reconstruction

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Administrative Reconstruction and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: Ministry of Administrative Reconstruction
Cooperation with supervised entities.

Contact details: Ministry of Administrative Reconstruction, Directorate of E-government

Objective

- 1) Creation of a new open data site with advanced functionalities, screening, scoring and communication mechanisms with users
- 2) Integration of new datasets
- 3) Mobilisation of entities of the Ministry of Administrative Reconstruction for data publication
- 4) Improvement of the quality of datasets
- 5) Open data release decisions
- 6) Upgrading of digital applications and provision of additional datasets
- 7) Creation of new datasets, statistics and reports
- 8) Further expansion of the open data ecosystem by involving civil society
- 9) Integration of information of previous phases of the civil servant mobility system

Key milestones - Timetable

Milestone	Completion
1) Creation of a new open data site with advanced functionalities, screening, scoring and communication mechanisms with users	Until the end August 2021
2) Integration of new datasets	Continuously up to end of August 2021
3) Mobilisation of entities of the Ministry of Administrative Reconstruction for data publication	Within 2019
4) Improvement of the quality of datasets	Continuously up to end of August 2021
5) Open data release decisions	Three (3) by end of August 2021
6) Upgrading of digital applications and provision of additional datasets	Until the end August 2021
7) Creation of new datasets, statistics and reports	Until the end 2020
8) Further expansion of the open data ecosystem by involving civil society	Until the end August 2021
9) Integration of information of previous phases of the civil servant mobility system	Within 2019

Commitment 7: Open access to data of the Ministry of Economy and Development

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Economy and Development and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: Ministry of Economy and Development

Contact details: Ministry of Economy and Development, DG of Digital Policy and e-Government

Objective

- 1) Integration of new datasets
- 2) Mobilisation of entities of the Ministry of Economy and Development for data publication.
- 3) Improvement of the quality of datasets
- 4) Open data release decisions
- 5) Upgrading of digital applications and provision of additional datasets
- 6) Datasets, applications and visualisations of data of procurement, contracts, public works and services

Key milestones - Timetable

Milestone	Completion
1) Integration of new datasets	Continuously up to end of August 2021
2) Mobilisation of entities of the Ministry of Economy and Development	Within 2019

for data publication.	
3) Improvement of the quality of datasets	Continuously up to end of August 2021
4) Open data release decisions	Three (3) by end of August 2021
5) Upgrading of digital applications and provision of additional datasets	Until the end August 2021
6) Datasets, applications and visualisations of data of procurement, contracts, public works and services	Until the end 2020

Data sets to be presented in May 2019

Decision of May 2019	THEMATIC CATEGORY
Imports of steel products from non-EU countries under surveillance status	ECONOMY
Imports of aluminium products from non-EU countries under surveillance status	ECONOMY
Statistical data bulletin of commercial transactions between Greece and its trading partners	STATISTICS
Prices of goods from market prices	STATISTICS
Establishment of new establishments of health interest and tourist accommodation establishments	STATISTICS
Monthly implementation of the budget of the Ministry	ECONOMY

Data shall also be utilised from the portal of the National System of e-Procurement www.eprocurement.gov.gr

The data that shall be made available, as mentioned in the last Ministerial Decision, require specific action, which can be summarised in the following points.

1. Creation of hyperlinks in data.gov.gr, referring to data existing on the Ministry's websites.
2. Creation of an API, where feasible, in order to have access from different data consumption systems. In the event that this is not feasible, it will be required to obtain regular CSV format tables to be posted directly on the relevant website. More specifically, the above actions concern the following websites:
 - a. **Fuelprices.gr** on fuel prices in the sales premises.
 - b. **Oil.gge.gov.gr** on fuel prices in refineries (ex factory).
 - c. **ΕΣΗΔΗΣ** (National System of e-Procurement) and **ΚΗΜΔΗΣ** (Central Electronic Register of e-Procurement).

- d. **1520.gov.gr** & www.efpolis.gr , regarding consumer protection issues.
- 3. Information of the relevant Directorates-General on the publication of data in machine-readable format and uploading them on the website data.gov.gr. The data concern the NSRF, the Public Investment Program and the Program of State Aids.
- 4. Activation of all bodies supervised by the Ministry, including the GEMI, on their obligation to post data, to register in the system data.gov.gr and to post data regularly.

Commitment 8: Open access to data of the National Centre for Public Administration and Local Government

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the National Centre for Public Administration and Local Government and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: National Centre for Public Administration and Local Government

Contact details: National Centre for Public Administration and Local Government, Institute of Documentation, Research and Innovation

Objective

- 1) Study on the Implementation of the Digital Repository
- 2) Implementation of a platform of a Digital Repository for research and studies of the public sector
- 3) Study on optimisation of the online consultation process
- 4) Integration of new datasets

Key milestones - Timetable

Milestone	Completion
1) Study on the Implementation of the Digital Repository	Until the end 2020
2) Implementation of a platform of a Digital Repository for research and studies of the public sector	Until the end 2021
3) Study on optimisation of the online consultation process	Until the end 2020
4) Integration of new datasets	Continuously up to end of August 2021

Commitment 9: Open access to data of the Ministry of Justice, Transparency and Human Rights

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Justice, Transparency and Human Rights and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: Ministry of Justice, Transparency and Human Rights
Cooperation with supervised entities.

Contact details: Ministry of Justice, Transparency and Human Rights, Secretary General

Objective

- 1) Anonymisation and creation of new datasets
- 2) Integration of new datasets
- 3) Mobilisation of entities of the Ministry of Justice, Transparency and Human Rights for data publication.
- 4) Improvement of the quality of datasets
- 5) Open data release decisions
- 6) Upgrading of digital applications and provision of additional datasets

Key milestones - Timetable

Milestone	Completion
1) Anonymisation and creation of new datasets	Until the end August 2021
2) Integration of new datasets	Continuously up to end of

	August 2021
3) Mobilisation of entities of the Ministry of Justice, Transparency and Human Rights for data publication.	Within 2019
4) Improvement of the quality of datasets	Continuously up to end of August 2021
5) Open data release decisions	Three (3) by end of August 2021
6) Upgrading of digital applications and provision of additional datasets	Within 2020

A more specific description of the commitments for May 2019 and February 2020 follows:

1. Decision of May 2019

Information, awareness-raising and support actions for the statutory units of the Central Service of the Ministry of Justice, Transparency & Human Rights, in open data matters with the aim of updating decision No 88206ouk./14.12.2016 of the Minister for Justice, Transparency & Human Rights on the “Registration, classification and assessment of sets of documents, information and data of the Ministry of Justice, Transparency of & Human Rights, pursuant to par. 3, art 10, law 3448/2006.» as provided for in par. 4, art. 10 of law 4305/2014.

2. Decision of February 2020

Ministry of Justice, Transparency and Human Rights	Decision of February 2020		
Agency	Dataset	Thematic category of dataset 1	Thematic category of dataset 2
Central Service	Provision of statistical data through the comprehensive information system of the project “National Criminal Register” such as: a) number of irrevocable convictions per year for serious offences, for convicted nationals of Member States of the European Union, for convicted third country nationals, b) statistical data on the use of the electronic service of online application and receipt of a copy of a criminal record from entities of the public sector and natural persons.	Justice	Statistical data

Central Service	Provision of statistical data on the results of competitions for lawyers and notaries.	Justice	Statistical data
Central Service	Number of grants of pardon awarded by the President of the Republic per year, pursuant to art. 47, paragraph 1 of the Constitution.	Justice	Statistical data
Central Service	Monthly/ annual bulletins of economic interest	Justice	Economics and finance

Commitment 10: Open access to data of the Ministry of Environment and Energy

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Environment and Energy and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

OGP Principles

Access to public information

Implementation entities, stakeholders

Implementation: Ministry of Environment and Energy
Cooperation with supervised entities.

Contact details: Ministry of the Environment and Energy, Directorate for e-Government, Department for the Planning and Development of ICT Applications

Objective

1. A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Environment and Energy and will be made available for re-use in order to contribute to the development and participation of citizens.
2. Investigation of the possibility of harvesting the data of the Ministry of Environment and Energy into data.gov.gr
3. Integration of new datasets and web services
4. Improvement of the quality of datasets
5. Open data release decisions

Key milestones - Timetable

Milestone	Completion
1) Creation of new datasets	Until the end 2021
2) Investigation of the possibility of harvesting our data in data.gov.gr	Until the end 2020

(creation of a compatible API)	
3) Integration of new datasets and web services	Continuously up to end of 2021
4) Improvement of the quality of datasets	Continuously up to end of 2021
5) Open data release decisions	Three (3) by end of 2021

Commitment 11: Open access to data of the Ministry of Culture and Sports

Current situation

The information is now covered by Law 4305/2014 on the «Open access and re-use of documents, information and public sector data, amendment of Law 3448/2006 (A' 57), adaptation of national legislation to the provisions of Directive 2013/37/EU of the European Parliament and of the Council, further strengthening of the transparency, regulation of issues regarding the recruitment competition of the National School of Public Administration and Local Government and other provisions» (Official Gazette A' 237/31.10.2014), with the differentiations provided for under the Directive regarding libraries, museums and archives, and a specific provisions regarding the protection of cultural heritage.

Description of Commitment

A wealth of data falling within the scope of Law 4305/2014 is available to the Ministry of Culture and Sports and its supervised entities and will be made available for re-use in order to contribute to the development and participation of citizens.

Objective

1. Open data release decisions
2. Updating of the datasets
3. Adaptation of datasets in accordance with the new structure of the Ministry's services
4. Grouping and homogenisation of the datasets of the Ministry

Key milestones - Timetable

Milestone	Completion
1. Open data release decisions	Three (3) by end of August 2021
2. Updating of the datasets	Continuously up to end of

	August 2021
3. Adaptation of datasets in accordance with the new structure of the Ministry's services	Until the end 2020
4. Grouping and homogenisation of the datasets of the Ministry	Continuously up to end of August 2021

HELLENIC REPUBLIC
MINISTRY OF DIGITAL GOVERNANCE

Addendum to the 4th National Action Plan on Open Government 2019-2021

December 2020

Addendum

Additional Commitments incorporated through the OGP Greece Ideathon 2020

For the purpose of updating the 4th National Action Plan, the OGP Greece Ideathon was organized in the summer of 2020. The OGP Greece Ideathon was an initiative of the Ministry of Digital Government, taking into account the special circumstances caused by the COVID-19 pandemic, to facilitate co-creation of new commitments aimed at improving the 4th National Action Plan for Open Government. A total of 15 proposals were submitted by 11 civil society organizations, companies and citizens. For the utilization and adoption of the proposals, a series of meetings were held with the competent Ministries, the Parliament and the National Telecoms Regulatory Authority -EETT and several of them were accepted, presented on [Dec 17](#), in a workshop attended by more than 100 representatives of Public Administration and Civic Society organizations, and are incorporated into the updated plan.

MINISTRY OF SPORTS AND CULTURE/ SPORTS SECTOR

COMMITMENT: Creation of a unified platform of anonymous and confidential reports (whistleblowing platform) so as to promote integrity in sports.

WHICH PUBLIC ISSUE DOES THE COMMITMENT ADDRESS? Many forms of corruption and deception, doping and physical / sexual abuse of adults and minors, bullying, fan violence, financial crime, match-fixing, abuse of power, bullying and other unfair practices seem to be endemic in sports. The issue of irregularities in sport is a "hidden" problem and therefore it is difficult to "measure" the current situation and quantify the effects.

WHICH IS THE PROPOSED COMMITMENT?

Development of a secure platform for confidential and anonymous reports of incidents of irregularities in sports. Promoting a culture of integrity in sports through innovative applications and integrating them within the reporting platform.

OGP Principles:

Public Participation,
Accountability,
Technology and Innovation

Implementing bodies, involved:

General Secretariat of Sports
Civil society actors

Contact Person Info:

George Mavrotas, Secretary General of Sports.

Target:

- Protection of those who detect and report irregularities,
- Switch from camouflage culture to transparency culture
- Awareness and resilience of athletes and citizens
- Awareness raising of the society through dissemination actions
- Reduction of financial losses
- Reduce the use of anabolic steroids

Key milestones - Schedule

Phase 1) Review of the institutional framework, promotion of international best practices and consultation with partners and stakeholders. **First Semester 2021.**

Phase 2) Implementation of a unified whistleblowing platform **Second Semester 2021.**

Phase 3) Pilot operation of the platform and regulatory compliance with National , European legislation and regulatory framework. **First Semester 2022.**

MINISTRY OF SPORTS AND CULTURE/CULTURAL SECTOR

Title: Open data availability of the Ministry of Culture & Sports

Short description: The Ministry of Culture and Sports, as well as its supervised bodies, have at their disposal a plethora of data that fall within the scope of Law 4727/2020 and will be available for further use in order to contribute to an overall development and participation of citizens.

Which public issue is addressing:

- Citizens, through datasets, will gain access to information (website available). Published datasets will become a useful tool for citizens' access to culture and motivate productive forces to develop IT applications of cultural interest.
- Distribution of similar sets in different ways by various Services: By set grouping and homogenizing the goal becomes a common policy of allocating similar data, so that every citizen becomes aware of how and under which conditions it is possible to obtain the data one needs.

Which body/ bodies will have the main responsibility for implementation:

Ministry of Culture and Sports (Culture sector) in collaboration with its supervised entities

Actions:

- 1) Carrying out an e-consultation, by setting questions that will strengthen the participation of citizens in the definition of the available data sets.
- 2) Improving the quality of data sets and metadata.
- 3) Update published datasets.
- 4) Grouping and homogenising of the datasets of the relevant Services.
- 5) Decision for releasing data available to the public.

Milestones for implementation: (Each one to be linked to verifiable deliverables)

- 1) Completion of Consultation: End of March 2021
- 2) Carrying out the Report / Consultation Results: End of April 2021
- 3) Culture Services datasets grouping and homogenizing: end of August 2021
- 4) Improving the quality of data sets and metadata: end of August 2021

5) Decision to release open data: One (1) end of August 2021

OGP principles:

- Access to information
- Public Participation

Contact details of the person responsible: Ministry of Culture and Sports, Directorate of e-Government, Department of Innovative Services & Simplification of Procedures.

MINISTRY OF RURAL DEVELOPMENT AND FOOD

• Title

Enrichment of the Register of FARMERS AND AGRICULTURAL HOLDINGS with more anonymous data.

• Short description

The new commitment for 2021 will examine the possibility of anonymizing additional data of the Register, in order to make it available in an open and readable format, providing important information such as, for example, the ages of farmers, their educational level, agricultural incomes, for the Crop Capital (type of cultivation, area), the Livestock (species, number of animals), the Facilities (species), the Agricultural Machinery and so on.

• Which public issue is addressing?

The openness of public information.

• Which body/ bodies will be mainly responsible for implementation.

The Ministry of Rural Development and Food will have the main responsibility for implementation, while the services that will co-operate to achieve the final result, will be both the e-Government Directorate that will contribute to suggesting an appropriate method for secure data anonymization, as well as the Department. Support and Register of Farmers and Agricultural Holdings (MAAE) which, due to its competence, has the final say in the approval of the data that will be available.

• Actions - milestones for implementation? (Each one to be linked to verifiable deliverables)

The **first milestone** for the implementation of the above commitment is the imprinting of the new anonymized data of the Register, in the decision of the OPEN DATA of the Ministry of Rural Development and Food for the year 2021, adjusting the description of the specific data set to in an adequate and clear form their increase, compared to the previous year.

The **second milestone** is posting of the updated and enriched register, in the open data of data.gov.gr

Directorate of Administrative Organization and Supervision of Legal Entities,

General Directorate of Administrative Services and E-Government

Tel. 210-2124464

• Title

Teleconference on the openness actions of the Ministry of Rural Development and Food

• Short description

The commitment concerns the holding of an open teleconference with potential stakeholders (universities, research institutes, IT companies, etc.), aiming at informing them about the openness

actions of the MofRD&F and with the prospect of submitting proposals to us, for data that seem to be useful.

- **What public issue is addressing?**

The openness of public information and public participation.

- **Which body/ bodies will have the main responsibility for implementation.**

The General Directorate of Administrative Services and e-Government of the Ministry of Rural Development and Food will have the main responsibility for implementation.

- **Actions - milestones for implementation?** (Each one to be linked to verifiable deliverables)

Milestones for the implementation of the above commitment:

- invitations sending to stakeholders
- Posting of a relevant Press Release on the website of the Ministry (www.minagric.gr)
- Posting a short video, presenting the results of the meeting, after holding it on the website of the Ministry (www.minagric.gr)

MINISTRY OF DIGITAL GOVERNANCE

Commitment: Co-Creation Process with citizens and organizations for the Annual Update of the Digital Transformation Bible.

Current situation:

Lack of continuous and effective interaction among the final users/ beneficiaries and central government of the context, scope and design of digital services.

Commitment description:

A well structured and effective interaction among organizations, citizens and government during the update procedure aims at the development as well as the adjustment of the digital services so as to offer the best possible solutions to real needs based on specific features of the end users.

The participating update procedure consists of not only a holistic dissemination approach but an active contribution of citizens and organizations to the final form of the DTB as well.

This certain procedure is analyzed in four distinct phases which enrich the DTB and is actually based on solid comments and proposals of the end users and beneficiaries, every twelve months. The actual purpose of the whole project is to form a mutually agreed co-operation framework within the ongoing interaction among the above mentioned stakeholders.

OGP Principles

Public Participation

Transparency

Accountability
Technology and Innovation

Implementing bodies/Stakeholders:

Ministry of Digital Governance
grnet

Contact Person:

Nancy Routzouni

Targets:

- Open ongoing communication among the state-the citizens and the organizations.
- Acquire a multi-level approach
- Active citizen's contribution to the digital transformation
- Best access to effective digital services
- Open Government
- Empower the trust between the citizens and the state.

Milestones – Timetable

Milestone	Completion
Phase 1 : Proposals	1-3rd Quarters 2021
Phase 2 : Co Creation Workshops and activities	2nd- -3rd Quarters 2021
Phase 3 :Update of DTB	Nov 2021
Phase 4 : DTB Publication	Dec 2021

COMMITMENT: CO-OPERATIVE MONITORING TOOL FOR THE OPEN GOVERNMENT ACTION PLAN

DESCRIPTION: Development of a monitoring tool platform for the OGP Action Plan. This platform will offer useful information regarding the integration of every milestone the implementation method and expected results.

IMPLEMENTING BODIES: Ministry of Digital Governance- ELLAK

THE COMMITMENT TACKLES WITH THE OPEN ISSUE OF: Lack of Information, limited or no access to information about the level of accomplishment of the commitments agreed within the OGP Action Plan.

At the time being, there is no piece of public information available on how these commitments are being carried out. As a consequence, one is obliged to communicate with the implementing body so as to reach any necessary information.

HOW THIS COMMITMENT ANSWERS TO THE ABOVE NEED: The rich and ongoing feedback of the monitoring tool platform is expected to form a solid reference point for all interested parts who wish to contribute in any way to the action plans high performance.

OGP PRINCIPLES:

Public Participation
Transparency
Accountability
Technology and Innovation

MILESTONES-ACTIONS:

Platform Presentation: January 2021

Context and Commitments following up: February 2021

Platform Operability Update - April 2021

Context Ongoing Update: January – August 2021

Title: Amendment of the EETT's Regulation about Quality Indicators of Electronic Communications Services and publication of open datasets

Short description

Since 2008, EETT has been publishing results of Quality Indicators (QI) of electronic communications services provided to the public. The QI Regulation (EETT Decision No. 480/017/13-05-2008, as amended by EETT Decision No. 621/011/27-09-2011, Government Gazette 2417/B/ 2011) determines the content and the form of the information to be published as well as the means and frequency of publication. The results of the QIs are produced by the providers on a semi-annual basis in the form of excel files, based on templates for each category of indicators issued by EETT. The current EETT initiative concerns the amendment of the QI regulation and the publication of open datasets.

Public issues addressed

EETT's QI Regulation needs to be amended to take into account the relevant changes in the rest of the regulatory framework, the relevant technological developments, as well as the experience from its application so far. The main objectives are to provide detailed information on the level of customer service (initial connection, failures, telephone support), as well as the publication of the results in the form of open datasets for their further use by citizens or other interested parties.

Implementing body

National Telecommunications and Post Commission (EETT)

Telecommunications Directorate / Telecommunications Monitoring and Supervision Department

Key milestones - Schedule – Deliverables

Milestone	Completion	Relevant Deliverable
1) Preparation of a draft of the new Regulation for public consultation	End of November 2020	P1: Public consultation document
2) Public Consultation	1/12/2020 – 15/1/2021	N/A
3) Processing of the answers to the public consultation and	By the end of October 2021	P2: Report of the public consultation

preparation of the final regulation		P3: Final QI regulation
4) Entry into force of the new Regulation	1/1/2022	N/A
5) Publication of the first open data sets in the new format	End of September 2022	P4: Open datasets in electronic format
