Open Government Partnership

Welcome & Introductions

Update on the Ottawa OGP Global Summit and High-Level Priorities

Open Government Partnership

Agenda
Preliminary Draft

Open Government Partnership Global Summit
May 29-31, 2019 - Ottawa

Open Government Partnership

CANADA 2019 | OGP Global Summit
Sommet mondial du PGO

In an era of digital transformation, **open government** is a tool to protect and promote free, open, and democratic societies for all people.

Many societies are facing the challenges of digital transformation:

- Trust in government institutions is low.
- Threats to democracy are emerging and disinformation is spreading.
- Digital tools are raising citizens' expectations of their leaders.

Open government has a critical role in bolstering opportunities for public good through digital:

- Help governments ensure they serve their people in ways that are efficient and fair.

- Help deploy new, digital tools that make government processes inclusive and citizen-centric.

The Open Government Partnership (OGP) is the leading global forum for advancing open government.

- It includes a vibrant, cross-sector network of reformers working to make governments more transparent, accountable and participatory.

Content Creation through the Call for Proposals

Grouping workshops around the themes of the Summit:

Inclusion

- Youth & Future of Open Government
- Driving Gender Equality
- Empowering Underrepresented Communities
- Indigenous Open Government and Data Sovereignty
- Access to Open and Restorative Justice
- Data Literacy for All Citizens and Using Data to Tell Your Story

Participation

- Engaging Citizens in Open and Digital Policy Making
- Securing & Protecting Civic Space
- Leveraging Technology to Enable Participation and Co-Creation
- Private Sector Engagement in Open Government
- Participatory and Transparent Budgeting
- Feedback Loops, Social Accountability, and Citizen Monitoring
- How Local Governments Are Making Open Government Work for Them

Impact

- How Open Government Improves the Lives of All Citizens
- How Open Policy Making is Changing Government
- Solutions to Implementation Challenges in Thematic Areas
- Keeping Open Governments Accountable and Responsive
- Innovative Methods of Measuring Impact
- What Works and How to Grow it: Scaling up Successful Reforms in Open Government

Open

- Threats to Democracy, Fake News, and Restoring Trust in Institutions
- Sustainable Development Goals and Open Government
- Anti-Corruption through Open Government
- Balancing Innovation in Open Government with Privacy Rights
- National Security Transparency
- Creating a Culture of Openness across Sectors
- Getting to Open States: Open Elections, Justice, Legislature & Parliaments
- Responsible Artificial Intelligence

In an era of digital transformation, **open government** is a tool to protect and promote free, open, and democratic societies for all people.

Many societies are facing the challenges of digital transformation:

- Trust in government institutions is low.
- Threats to democracy are emerging and disinformation is spreading.
- Digital tools are raising citizens' expectations of their leaders.

Open government has a critical role in bolstering opportunities for public good through digital:

- Help governments ensure they serve their people in ways that are efficient and fair.

- Help deploy new, digital tools that make government processes inclusive and citizen-centric.

The Open Government Partnership (OGP) is the leading global forum for advancing open government.

- It includes a vibrant, cross-sector network of reformers working to make governments more transparent, accountable and participatory.

Opportunity

The Government of Canada and the Open Government Partnership (OGP) are seeking your support to:

- Secure commitments on priority Summit themes
- Visibly demonstrate the value of the global open government movement

Goals today:
1. Call to action
2. What we are asking for
3. How to contribute

Call to Action

Protect Participation

Adopt participatory models within your own OGP efforts

Champion Inclusion

Share efforts to foster inclusion in your co-creation processes

Impact for Digital Democracy

Develop commitments that prioritize citizen's rights and expectations in the digital era
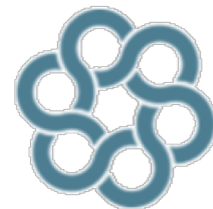

Actions to ensure more meaningful participation

Opportunities for leadership:

- **Tackle challenges of disinformation and "fake news"**
  - Explore policy measures around misuse of digital media

- **Improve civil society-state relations**
  - Meet or exceed the OGP's requirements on multi-stakeholder forums
  - Strengthen safeguards for activists and journalists

- **Defend civic space**
 - Protect human rights including freedom of expression, association and assembly

Actions for a more inclusive OGP

Opportunities for leadership:

- **Make co-creation and consultation more inclusive**
  - Include diverse civil society groups, including those working on gender equality, in open government processes

- **Mainstream inclusion through action plans**
  - Conduct gender-based analysis of action plans
  - Push towards gender disaggregated data
  - Design action plan commitments that address a specific gap in women and girls' service or policy needs.

Actions to create impact for digital democracy

Opportunities for leadership:

- **Protect citizen rights in the digital age**
  - Develop and implement commitments that protect rights around data and privacy
  - Improve internet access and control

- **Support responsible and ethical use of emerging technology**
  - Participate in global policy discussions on how AI can be made more open and responsible
  - Improve transparency of public algorithms and source codes

How to contribute: timelines

April 4	• Seek feedback from OGP Steering Committee
April 5	• Email to OGP to Points of Contact previewing Co-chair call for action
April 9	• POC webinar (English and French) to provide guidance and answer questions.
April 18	• Letter from co-chairs to all OGP Ministers with Call to Action
April 26	• POCs to communicate commitments to OGP
May 29 (at Summit)	• Announce deliverables and release fact sheets on commitments
September	• OGP to follow-up with POCs on progress
December	• OGP to present update on outcomes to the Steering Committee and potentially publish

How to contribute: sharing your commitments

- Next steps:
  - Design or identify your contribution to Summit outcomes, in alignment with Summit priorities
    - Could be new actions or best practices already underway
  - Input your action via survey tool

Open Government Partnership

Advancing the Priorities of the 2019 Ottawa OGP Global Summit

The co-chairs of the OGP Steering Committee, the Government of Canada and Nathaniel Heller, have identified two overall priorities of the 6th OGP Global Summit taking place in Ottawa, Canada on May 29-31:

1) Advancing gender equality and inclusion through open government; and
2) Strengthening democracy and protecting civic rights in the digital era.

In advance of the Summit, we call on all fellow OGP governments to support and take a concrete action on at least one of the two priorities. We invite you to share how your government is concretely supporting these priorities in your current or future action plans. All relevant actions will be evaluated and showcased throughout the summit, shared on social media, and could include a speaking opportunity for you to share your country's actions on these areas.

If you would like your actions to be showcased and/or considered for a speaking role, please submit this information by May 15. Actions will continue to be collected on a rolling basis throughout the Summit. Please note that only actions submitted through this form will be taken into consideration.
