Cabo Verde: Comments Received on the 2018-2021 Transitional Results Report

Comments received from Luís Teixeira, Advisor to the Prime Minister, Coordinator of the Competitiveness Unit, Government of Cabo Verde, regarding commitment 1:

Thank you for sharing the report; however, allow me to make a few corrections that the Unit think, it is necessary:

- **Milestone 7:** The technical assistance it is for the overall Reforms on the Legal Framework, including the Codigo de Sociedades de Empresas.
- **Milestone 8:** Public Land Registry does work. It is the Cadastre of the city of Praia that needs funding. The Islands of St. Vicente, Boavista, Maio and Sal have been Cadastre, Financed by USA, Millennium Challenge Account Program. You can visit the site information in the registry publicly, Registo Nacional de Identidade, RNI: <http://www.rni.cv/category/cidadaos/registo-predial>. The RNI site has been operational since 2017/18.
- **Milestone 9:** Janela Única de Comercio Externo is due to be completed in June 2022, not august 2023.
- **Milestone 2:** The Collateral Registry, rgm.gov.cv is done due to be launched in April. The Central Bank, Credit Risk Center is for gathering Credit Info on companies. The rgm.gov.cv site was taken down for maintenance since it will be up and running for the launching to take place at the end of April; however, you can visit the prototype which is the same: rgm.prime.cv

We hope that the information above delineated are taken into consideration.
