

## **Open Government Partnership**

### **Independent Reporting Mechanism**

#### **Papua New Guinea:**

#### **Comments received on the Transitional Results Report for the third OGP action plan (2018-2021)**

The following comment was received from Wallis Yakam, Consultative Implementation and Monitoring Council (29 March 2022) on Section 2.1 (Page 4):

This is not true. Commitment 4 on Public Participation, Giving Voice to Informal Economy. PNG has a final draft National Informal Voice Strategy developed but could not be finalised within the NAP I implementation period because management had changed within the lead implementing agency plus government also changed. New people were needed to be sensitised and made aware of it. The Strategy is now being prioritised as a key activity by the lead agency by the new Management team. They have just completed validations across the country in partnership with the EU and CIMC. The final draft will be then submitted to Cabinet soon to be endorsed for implementation.
