

## OGP LOCAL MEMBERS

Oviedo, 22 de diciembre de 2021

Dear OGP Local Members,

The Principality of Asturias is an Autonomous Community of one million inhabitants surrounded by mountains and located in the north of Spain. As consejera de Presidencia in the Principality of Asturias I want to express our interest in participating in OGP Local. The Government that I preside has the firm commitment to deepen the principles of Open Government initiated by my predecessors.

We understand that Open Government is a fundamental tool to regain the trust of citizens in politics and in democratic institutions. We understand that the challenges being faced by the Asturian society can only be resolved if transparency, participation, accountability and public innovation are at the core of our political action. And we understand that participating in OGP Local is a great opportunity to reinforce that commitment and establish it on solid foundations.

Our candidacy wants to learn but also wants to share our experience in Open Government with the rest of the OGP Local members. We are confident that this collaboration will allow us to grow together.

Rita Camblor Rodríguez-  
Consejera de Presidencia del  
Gobierno del Principado de  
Asturias

*El Rector de la Universidad de Oviedo*

**OGP Local Members**

Oviedo, 22nd of december 2021

Dear OGP Local Members:

Through this letter we want to express our support so that the Autonomous Community of the Principality of Asturias can become part of OGP Local.

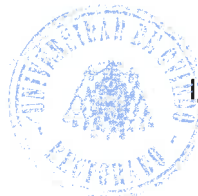

Our institution, the University of Oviedo was created in 1608 and we are deeply dedicated to education.

Through our relationship with the Government of the Principality of Asturias we can confirm its commitment to the principles of Open Government.

We believe that the Principality of Asturias will be a member that can enrich OGP Local as well as become a benchmark in Open Government for other Spanish administrations.

We hope you will consider our request positively.

All the best,

Ignacio Villaverde

Rector
