Section 1. Key Observations: Observation 5

Aside from the mentioned factors, the availability and quality of data should also not be overlooked.

Comment Received from Chadwick Go Llanos (April 13, 2023)

Annex 1. Commitment Data: Commitment 5

The advocacy in legislating a subnational EITI had finally been filed and reached second reading, and while lobbying was done by STANCe, the initiative comes from the Provincial Board. Why it did not move beyond the second reading is a matter that can be evaluated further.

The term lack of support can become inaccurate consider nuances.

May I suggest to just state that STANCe lobbied for an ordinance which reached second reading but did not get passed as of this time?
