

# Open Government Partnership Independent Reporting Mechanism

## Action Plan Review: Albania 2023-2025 Comments Received

### Comment Received from Ministry of Justice (31 January 2024)

#### Comment on Annex 1

We do not agree with the assessment referring to the potential for results: modest: We think and expect significant results in response to the implementation of measures such as: 3.3, 3.4 and 3.5 specifically. The measures will result in final products: evaluations, which can and will be part of initiatives to change our processes and make them better. They are considered as external assessment methods (expertise) and independent for the government.
