OPEN GOVERNMENT PARTNERSHIP

Rue de la Charité 22 Bruselas,
1210 Bélgica

On behalf of the Municipality of Villanueva, Cortés, and in my own name, please accept my warm and respectful greetings.

I sincerely appreciate the kind congratulations extended on the occasion of my re-election for the upcoming administrative term leading this Municipality, as well as the ongoing support that the Open Government Partnership has provided to our local government since our incorporation into the Local Program in 2024.

We reaffirm our firm commitment to the values and principles promoted by OGP, particularly transparency, accountability, citizen participation, and public innovation. Under this approach, the Municipality of Villanueva, Cortés successfully completed its First Local Action Plan, aimed at strengthening public management through digital solutions and at developing a comprehensive and participatory system for the sustainable management of solid waste—actions that have generated significant progress for our community.

We fully agree that this new municipal term represents a valuable opportunity to renew commitments, strengthen coordination with civil society and other stakeholders, and move forward with the co-creation of a Second Local Action Plan that responds to the municipality's current priorities and challenges, aligned with innovative open government reforms.

Likewise, we value the invitation to participate in the Open Gov Challenge, within the framework of the OGP Strategy 2023–2028, and we will be analyzing the formulation and submission of commitments that contribute to addressing global and local challenges such as climate change, democratic strengthening, and the sustainable development of our communities.

In response to your request, this Municipality expresses its willingness to timely submit the corresponding Letter of Support, thereby reaffirming our commitment to continue being an active part of this important alliance and of the global open government community.

We once again appreciate the support and collaboration offered, and we reiterate our openness to continue working jointly on initiatives that generate tangible benefits for the citizens of Villanueva, Cortés.

Without further matters, I remain yours sincerely, with the highest consideration and esteem.

Sincerely,

Dr. Walter Smelin Perdomo Aguilar
Municipal Mayor
Villanueva, Cortés, Honduras
