Your Ref:

Dear Jose Maria Marin
Country Director, OGP

Thank you for your letter congratulating me on my re-election and the commencement of my second term as Executive Chairman of the Abuja Municipal Area Council (AMAC). I am also pleased to inform you of my election as FCT Chairman of the Association of Local Government Chairmen of Nigeria (ALGON).

Since joining the Open Government Partnership (OGP) in 2020, AMAC has made significant progress in strengthening governance processes, transparency, and citizen participation. The active participation of AMAC officials in OGP forums at the local, regional, and international levels has raised the Council's profile and positioned it as a reference point, attracting interest from international development partners for collaboration.

As we commence this second term, my administration will continue to uphold the values and principles of OGP and work with our civil society partners, particularly THE DEAN INITIATIVE, and other stakeholders to advance the open government agenda.

In this regard, we look forward to working with THE DEAN INITIATIVE to develop an OGP Action Plan framework that reflects the priorities and policy thrust of the second-term administration. The process will involve identifying

priority areas, engaging relevant stakeholders, defining measurable commitments and expected outcomes, and establishing an appropriate framework for implementation, monitoring, and accountability.

I look forward to strengthening this partnership and translating the principles of open government into practical outcomes for the people of AMAC.

Kind regards,

Hon. Christopher Zakka

Executive Chairman

Abuja Municipal Area Council (AMAC)
