

INTRODUCTION

By FAKIH LANJRI Nassar

The Deputy Mayor of Tetouan

Based on our vision of an inclusive, resilient city and an open municipality, the OGP action plan of the commune of Tetouan is co-created from a perspective of improving the quality of services provided to citizens with the ultimate objective of improve the quality of life of residents.

As a partner in the co-construction of the OGP action plan, the municipality has also carried out work to align commitments with the vocation of a social state set by the new development model adopted by the Moroccan state.

We consider with our partners that the OGP action plan of the commune of Tetouan is the effective translation of the commitment of all to achieve the targets set by SDG -16, moreover we also deploy our efforts to keep our commitments as part of the territorialization of SDGs – 5 and 13.

SDG-11 is at the center of our interest, the OGP action plan that we present today effectively reflects the desire to create an ecosystem of open governance where the needs of vulnerable groups are taken into account and an understanding of the interest of concerted and participatory planning for integrated and sustainable development.

The OGP action plan: Tetouan, open municipality 2023-2026 is considered to be the document that materializes the orientations of the municipal action plan (PAC 2023-2028), also developed according to a participatory approach. The OGP action plan clearly defines the commitments made mutually with our partners in terms of open local government through the basic principles: transparency, accountability and citizen participation.

FAKIH LANJRI Nassar
The Deputy Mayor of Tetouan
